問題:

1. Do you like London?
2. Do you think Japanese high-school children have too much homework?
3. Why do you think many people around the world want to study English?
4. In your opinion, how can we fight against climate change?

点数のつけ方の例題:

People use their mobile phones too much these days. Do you agree?

<i>(Points)</i>	<i>(Sample answer)</i>
1. <i>(Basic)</i>	I think phone is convenience.
2.	I think people sometimes use phones many times. Maybe it's not good.
3.	I think people use phone many times every day, and it's not good. We use phones for talking and sending email. But maybe too much.
4.	I agree. People use their mobile phones too much these days. Phones are convenient, but sometimes you can't talk to people because they are looking at their phones.
5.	Yes, I agree. Of course, people need phones for work and communication. But some people have phone addiction. They always look at their phones, and you can't talk to them! I think it's bad for their health. People should switch their phones off sometimes!
6. <i>(Excellent)</i>	Well, yes, I mainly agree with that. Phones are just part of the modern world and obviously we need them to communicate and work and make plans. But some people are practically addicted to using their phones, just checking their phone every five minutes, and I don't think it's good for their mental health. I think the whole Instagram Facebook culture is quite shallow. Personally I find it a relief when I can switch my phone off and relax!
